

Project Abstract Summary

Healthcare-associated infections (HAIs) are a significant cause of morbidity and mortality. They are among the top ten leading causes of death in the US, accounting for an estimated 1.7 million infections and 99,000 deaths in hospitals alone in 2002. In 2007, the Oregon state legislature passed House Bill 2524, which created a mandatory HAI reporting program and assigned lead responsibility to the Office for Oregon Health Policy and Research (OHPR). OHPR is responsible for the development and analysis of health policy in Oregon and serves as the policymaking body for the Oregon Health Plan. HB 2524 also authorized the creation of the Healthcare-Acquired Infection Advisory Committee (HCAIAC); its role is to advise OHPR on the development of the HAI Reporting Program. The co-chair of the HCAIAC is the director of the Oregon Patient Safety Commission (OPSC), a semi-independent state agency, which has a mission to reduce the risk of adverse events in Oregon's health care system and promote quality improvement activities. Although the Oregon Public Health Division (OPHD), the state's public health agency, has had representation on the HCAIAC, OPHD has not been directly involved in HAI surveillance in Oregon.

The CDC's National Healthcare Safety Network (NHSN) was chosen as the reporting system to be used for inpatient HAI outcome measures. Quarterly inpatient reporting to NHSN began January 1, 2009 in Oregon and includes central line-associated bloodstream infections in ICUs and surgical site infections (coronary artery bypass graft surgery and knee prosthesis procedures). All Oregon hospitals have been reporting these measures since January 2009.

Recovery Act funding in Oregon will be used to expand the existing HAI Reporting Program and support more focused planning efforts to reduce HAIs in Oregon. The specific objectives are to:

- 1) Increase collaboration among OHPR, OPHD, and the OPSC;
- 2) Integrate their efforts with other partners in the state working on HAIs;
- 3) Improve the capacity of OPHD, the state's public health agency, to participate in and strengthen the state's HAI surveillance system, as well as its own ability to report, detect, and respond to HAIs; and
- 4) Develop a cohesive state process for developing multicenter evidence-based prevention collaboratives in order to make measurable progress toward the National Prevention Targets outlined in the HHS Action Plan to Prevent HAIs.

OHPR will recruit and hire a State HAI Prevention Coordinator who will lead a statewide HAI planning process and work to ensure that the state plan, once developed, will be implemented. The position will have a main role in promoting collaboration and integration of all groups in the state involved with HAIs and avoiding duplication of efforts. OPHD will hire a HAI Data Coordinator who will work closely with staff at OHPR to further promote use of the NHSN in the state as well as estimate the burden of and risks for HAIs in Oregon, develop and implement validation studies of NHSN data, and develop the capacity for electronic reporting of laboratory data into the NHSN. Lastly, OPSC will hire a Prevention Collaborative Manager to spearhead the development of prevention collaboratives based on the National Prevention Targets decided upon during the state HAI planning process.

Guide for Strategic Planning 2009-2010

The following is intended as a guide to engage the HAI Advisory Committee in strategic planning for 2009-2010. In addition as the work plan for 2009-2010 is finalized, this and other issues can be identified to help guide longer-term planning and strategies. The list below is intended to facilitate discussion and does not include all possible options or prioritization. The first two sections (*statutory and rules*) are items need to be incorporated into the work plan for 2009-2010 because of statute or administrative rule. The third section represents possible areas of consideration for 2009-2010 and the future work of the committee. This section is not exhaustive but options to consider along with others brought forward by the committee.

Statutory Requirements for 2009-2010

- Public reporting of hospital measures
 - a. Release a public report no later than May 2010
 - i. Inclusion exclusion criteria for facility level reporting
 - ii. Validation methodology
 - iii. Analysis to include
 - iv. What is the time frame
 - v. Report generation and editing
 - vi. Communications strategy
 - b. Release a public report no later than December 2010
 - i. What facilities to include?
 - ii. Inclusion exclusion criteria for facility level reporting
 - iii. Validation methodology
 - iv. Analysis to include
 - v. Report generation and editing
 - vi. Report generation and editing
 - vii. Communications strategy
 - c. Development of website/report that can be updated on a quarterly basis starting in 2011

Rules Requirements for 2009-2010

- Facility staff flu vaccine survey
 - a. Development of the survey
 - b. Communication strategy for facilities
 - c. When we want to field

- d. Can this be included in December 2010 report
- Ambulatory Surgery Evidence Based Patient Safety Survey
 - a. Development of the survey
 - b. Communication strategy for facilities
 - c. When we want to field
 - d. Can this be included in December 2010 report
- Development of Vermont Oxford stakeholder group
 - a. Establish workgroup
 - b. Establish deliverable and timetables to report to HAI Committee

Examples of issues to consider for 2009-2010 and longer-term planning

- Develop a statewide HAI prevention plan following the US HHS Action Plan
 - a. Submit plan by January 2010
- Expand existing event reporting requirements of hospitals through NHSN
 - a. Revise administrative rules for reporting requirements of Surgery Site Infections to include any or all of the following by [insert date]

Table 1. NHSN Operative Procedure Categories		
NHSN	Operative Procedure	Description
AAA	Abdominal aortic aneurysm repair	Resection of abdominal aorta with anastomosis or replacement
AMP	Limb amputation	Total or partial amputation or disarticulation of the upper or lower limbs, including digits
APPY	Appendix surgery	Operation of appendix (not incidental to another procedure)
AVSD	Shunt for dialysis	Arteriovenostomy for renal dialysis
BILI	Bile duct, liver or pancreatic surgery	Excision of bile ducts or operative procedures on the biliary tract, liver or pancreas (does not include operations only on gallbladder)
BRST	Breast surgery	Excision of lesion or tissue of breast including radical, modified, or quadrant resection, lumpectomy, incisional biopsy, or mammoplasty.
CARD	Cardiac surgery	Open chest procedures on the valves or septum of heart; does not include coronary artery bypass graft, surgery on vessels, heart transplantation, or pacemaker implantation
CEA	Carotid endarterectomy	Carotid endarterectomy

CHOL	Gallbladder surgery	Cholecystectomy and cholecystotomy
COLO	Colon surgery	Incision, resection, or anastomosis of the large intestine; includes large-to-small and small-to-large bowel anastomosis; does not include rectal operations
CRAN	Craniotomy	Incision through the skull to excise, repair, or explore the brain; does not include taps or punctures
CSEC	Cesarean section	Obstetrical delivery by Cesarean section
FUSN	Spinal fusion	Immobilization of spinal column
FX	Open reduction of fracture	Open reduction of fracture or dislocation of long bones that requires internal or external fixation; does not include placement of joint prosthesis
GAST	Gastric surgery	Incision or excision of stomach; includes subtotal or total gastrectomy; does not include vagotomy and fundoplication
HER	Herniorrhaphy	Repair of inguinal, femoral, umbilical, or anterior abdominal wall hernia; does not include repair of diaphragmatic or hiatal hernia or hernias at other body sites.
HPRO	Hip prosthesis	Arthroplasty of hip
HTP	Heart transplant	Transplantation of heart; in/explantation of artificial heart
HYST	Abdominal hysterectomy	Removal of uterus through an abdominal incision
LTP	Liver transplant	Transplantation of liver
NECK	Neck surgery	Major excision or incision of the larynx and radical neck dissection; does not include thyroid and parathyroid operations.
NEPH	Kidney surgery	Resection or manipulation of the kidney with or without removal of related structures
OVRY	Ovarian surgery	Operations on ovary and related structures
PACE	Pacemaker surgery	Insertion, manipulation or replacement of pacemaker
PRST	Prostate surgery	Suprapubic, retropubic, radical, or perineal excision of the prostate; does not include transurethral resection of the prostate.
PVBY	Peripheral vascular bypass surgery	Bypass operations on peripheral vessels
REC	Rectal surgery	Operations on rectum
RFUSN	Refusion of spine	Refusion of spine
SB	Small bowel surgery	Incision or resection of the small intestine; does not include small-to-large bowel anastomosis
SPLE	Spleen surgery	Resection or manipulation of spleen
THOR	Thoracic surgery	Noncardiac, nonvascular thoracic surgery; includes pneumonectomy and diaphragmatic or hiatal hernia repair
THYR	Thyroid and/or parathyroid surgery	Resection or manipulation of thyroid and/or parathyroid

VHYS	Vaginal hysterectomy	Removal of the uterus through vaginal or perineal incision
VSHN	Ventricular shunt	Ventricular shunt operations, including revision and removal of shunt
XLAP	Abdominal surgery	Abdominal operations not involving the gastrointestinal tract or biliary system

- b. Revise and add administrative rules for reporting requirements of Central Line Blood Stream Infections to include all hospital areas/services/units by [insert date]
- Add addition event reporting for hospital reporting through NHSN
 - a. Add administrative rules for reporting requirements of Catheter Associated Urinary Tract Infections by [insert date]
 - b. Add administrative rules for reporting requirements of Ventilator-Associated Pneumonia by [insert date]
 - c. Add administrative rule for reporting requirements using the Multi-drug Resistant Organism module by [insert date]
 - d. Add administrative rule for reporting requirements of Dialysis Event by [insert date]
 - e. Add administrative rule for reporting requirements of Post-Procedure Pneumonia by [insert date]
- Add freestanding outpatient dialysis centers for reporting requirements through NHSN
 - a. Add administrative rules for reporting requirements by [insert date]
- Add freestanding ambulatory surgery centers for outcome measures
 - a. Add administrative rules for reporting requirements by [insert date]

Table 1. NHSN Operative Procedure Categories		
NHSN	Operative Procedure	Description
AAA	Abdominal aortic aneurysm repair	Resection of abdominal aorta with anastomosis or replacement
AMP	Limb amputation	Total or partial amputation or disarticulation of the upper or lower limbs, including digits
APPY	Appendix surgery	Operation of appendix (not incidental to another procedure)
AVSD	Shunt for dialysis	Arteriovenostomy for renal dialysis
BILI	Bile duct, liver or pancreatic surgery	Excision of bile ducts or operative procedures on the biliary tract, liver or pancreas (does not include operations only on gallbladder)
BRST	Breast surgery	Excision of lesion or tissue of breast including radical, modified, or quadrant resection, lumpectomy, incisional biopsy, or mammoplasty.
CARD	Cardiac surgery	Open chest procedures on the valves or septum of heart; does not include coronary artery bypass graft, surgery on vessels, heart transplantation, or pacemaker implantation
CEA	Carotid endarterectomy	Carotid endarterectomy
CHOL	Gallbladder surgery	Cholecystectomy and cholecystotomy
COLO	Colon surgery	Incision, resection, or anastomosis of the large intestine; includes large-to-small and small-to-large bowel anastomosis; does not include rectal operations
CRAN	Craniotomy	Incision through the skull to excise, repair, or explore the brain; does not include taps or punctures
CSEC	Cesarean section	Obstetrical delivery by Cesarean section
FUSN	Spinal fusion	Immobilization of spinal column
FX	Open reduction of fracture	Open reduction of fracture or dislocation of long bones that requires internal or external fixation; does not include placement of joint prosthesis
GAST	Gastric surgery	Incision or excision of stomach; includes subtotal or total gastrectomy; does not include vagotomy and fundoplication

Table 1. NHSN Operative Procedure Categories

HER	Herniorrhaphy	Repair of inguinal, femoral, umbilical, or anterior abdominal wall hernia; does not include repair of diaphragmatic or hiatal hernia or hernias at other body sites.
HPRO	Hip prosthesis	Arthroplasty of hip
HTP	Heart transplant	Transplantation of heart; in/explantation of artificial heart
HYST	Abdominal hysterectomy	Removal of uterus through an abdominal incision
LTP	Liver transplant	Transplantation of liver
NECK	Neck surgery	Major excision or incision of the larynx and radical neck dissection; does not include thyroid and parathyroid operations.
NEPH	Kidney surgery	Resection or manipulation of the kidney with or without removal of related structures
OVRY	Ovarian surgery	Operations on ovary and related structures
PACE	Pacemaker surgery	Insertion, manipulation or replacement of pacemaker
PRST	Prostate surgery	Suprapubic, retropubic, radical, or perineal excision of the prostate; does not include transurethral resection of the prostate.
PVBY	Peripheral vascular bypass surgery	Bypass operations on peripheral vessels
REC	Rectal surgery	Operations on rectum
RFUSN	Refusion of spine	Refusion of spine
SB	Small bowel surgery	Incision or resection of the small intestine; does not include small-to-large bowel anastomosis
SPLE	Spleen surgery	Resection or manipulation of spleen
THOR	Thoracic surgery	Noncardiac, nonvascular thoracic surgery; includes pneumonectomy and diaphragmatic or hiatal hernia repair
THYR	Thyroid and/or parathyroid surgery	Resection or manipulation of thyroid and/or parathyroid
VHYS	Vaginal hysterectomy	Removal of the uterus through vaginal or perineal incision
VSHN	Ventricular shunt	Ventricular shunt operations, including revision and removal of shunt
XLAP	Abdominal surgery	Abdominal operations not involving the gastrointestinal tract or biliary system
